Appearance	Light, Clear Liquid
Weight Per Gallon, Lbs	8.15
Flash Point,°C (CC)	34
Odor	Sweet Odor

Tallicin® 4600 is an organotin compound recommended as a general purpose cure promoter for moisture-cure and 2K polyurethane systems. Tallicin® 4600 is used with polyester, polyether, and polyacrylate polyols.

APPLICATIONS

Tallicin[®] 4600 can be used to promote curing of both moisture-cured and 2K polyurethane systems. In addition, Tallicin[®] 4600 can be used to increase working time in a polyaspartic coating when incorporated into the polyaspartic amine of a 2K coating system.

FEATURES

Extends the working time of polyurethane and polyaspartic coatings formulations. Provides a stabilized organotin compound catalyst without significantly affecting the through-cure.

PROUDUCT USES (For professional use only. Not intended for retail sales.)

The proper use level will depend on the formulation employed, but a use level of Tallicin® 4600 in the range of 0.05% to 0.25% of the finished product is generally effective. The appropriate level of addition for Tallicin® 4600 must be evaluated thoroughly for commercial use.

SAFETY, STORAGE, AND HANDLING

Consult MSDS before use. Store Tallicin® 4600 in tightly sealed containers. Prevent contact with moisture and excess humidity. Once opened, any remaining Tallicin® 4600 in the container is best stored under dry nitrogen blanketing. Store, transfer, and handle under a nitrogen blanket. Replace damaged gaskets on drums or totes. Keep storage temperatures at 15°C - 40°C (59°F - 104°F). Shelf life of Tallicin® 4600 is 12 months from date product is shipped by Pflaumer and then maintained in original closed containers and stored in proper storage conditions at 25°C (75°F). For repackaging, use containers that will prevent moisture contamination.

OTHER PFLAUMER PRODUCTS FOR THE FORMULATOR

Pflaumer offers other products for formulating 2K coatings:

	37 Ready-to-use pigment dispersions for 2K polyurethanes and polyaspartics, including color packs for on-site use
Teracure ® Aliphatic Polyisocyanates	Complete line of HDI-based trimer isocyanates
Teraspartic ®Polyaspartic Amines	For slow, medium, and fast curing
Terachem ®53- 2242	Anti-sag additive for 2K polyaspartics
Tallicin ®1500	Flow and leveling modifier
Tallicin ®3000	Pot life extender for trimer-type isocyanates used in 2K polyurethanes
Tallicin ®4000	Bubble-release, agent and flow/leveling modifier for high-solids polyurethanes
Tallicin ® 4040	Bubble-release, flow and leveling modifier for solvent-free polyaspartics and polyurethanes
Tallicin ®4600	Stabilized Tin Catalyst for Polyurethanes

CONTAINER SIZES

5 Gallon Pail (37.5 Lb/17 Kg) 55 Gallon Drum (441 Lb/200 Kg)
